                  It would be good to know if the crews are able to complete sites just like previously since I dont want to skip not done or double sites already completed
                  In addition. Im not seeing CARE + DTLA sites in CD1 in the daily schedule shared through UHRC. Pls advise.
                 Thanks,

I am attaching an updated AMS sheet for your reference, however, since we're just spot cleaning authorization numbers are not required.
